Foundgood

The Novo Nordisk Foundation uses Foundgood as the reporting platform for grants awarded within the social and humanitarian area as well as within the education, outreach and innovation area.

Launched in September 2019, Foundgood is owned and operated by the non-profit company Found-Aid.

Today, **4** foundations and more than **350** grantees use Foundgood.

Working together to understand impact

Foundgood helps foundations and grantees share and understand the impact they create - together

What makes Foundgood a unique reporting platform?

Foundgood helps NNF and grant recipients get an overall overview of the results and effects achieved

- **Foundgood is Cloud based** - provides secure and transparent sharing of data, both internally in your organizations and with the Novo Nordisk Foundation
- A **flexible design** that ensures systematic collection of data regardless of whether it is long-term partnerships or small individual grants.
- Foundgood uses a simple and **logical model** that ensures a common understanding of what your project is about (vision/goals), the work to be done (activities), the results achieved (output) and the long-term effects (outcomes and impact).

632 NNF projects in Foundgood

	Number of grants
 Humanitarian	190
 Science and Innovation	98
 Education	275
 Social	69

Why reporting is important to the NNF

We support an **informed decision** process (what works and what does not) used for advocacy towards research funding.

We **communicate** the overall success of NFF in a simple way to create transparency and legitimacy for our research funding.

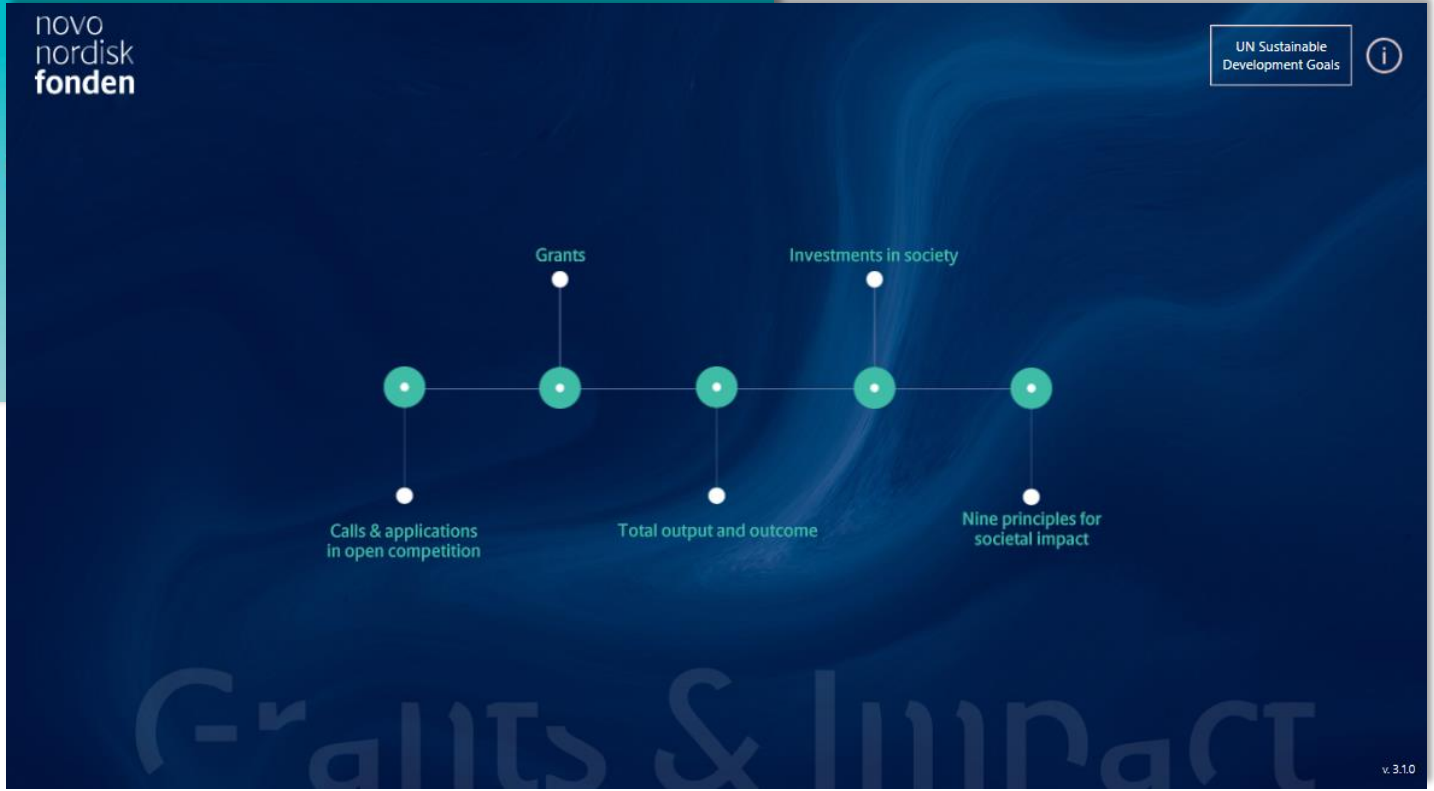

We support and facilitate **evaluation and learning** in the organization that supports impact management.

We circle back input, output and outcome data to the grant holder to facilitate **learning**.

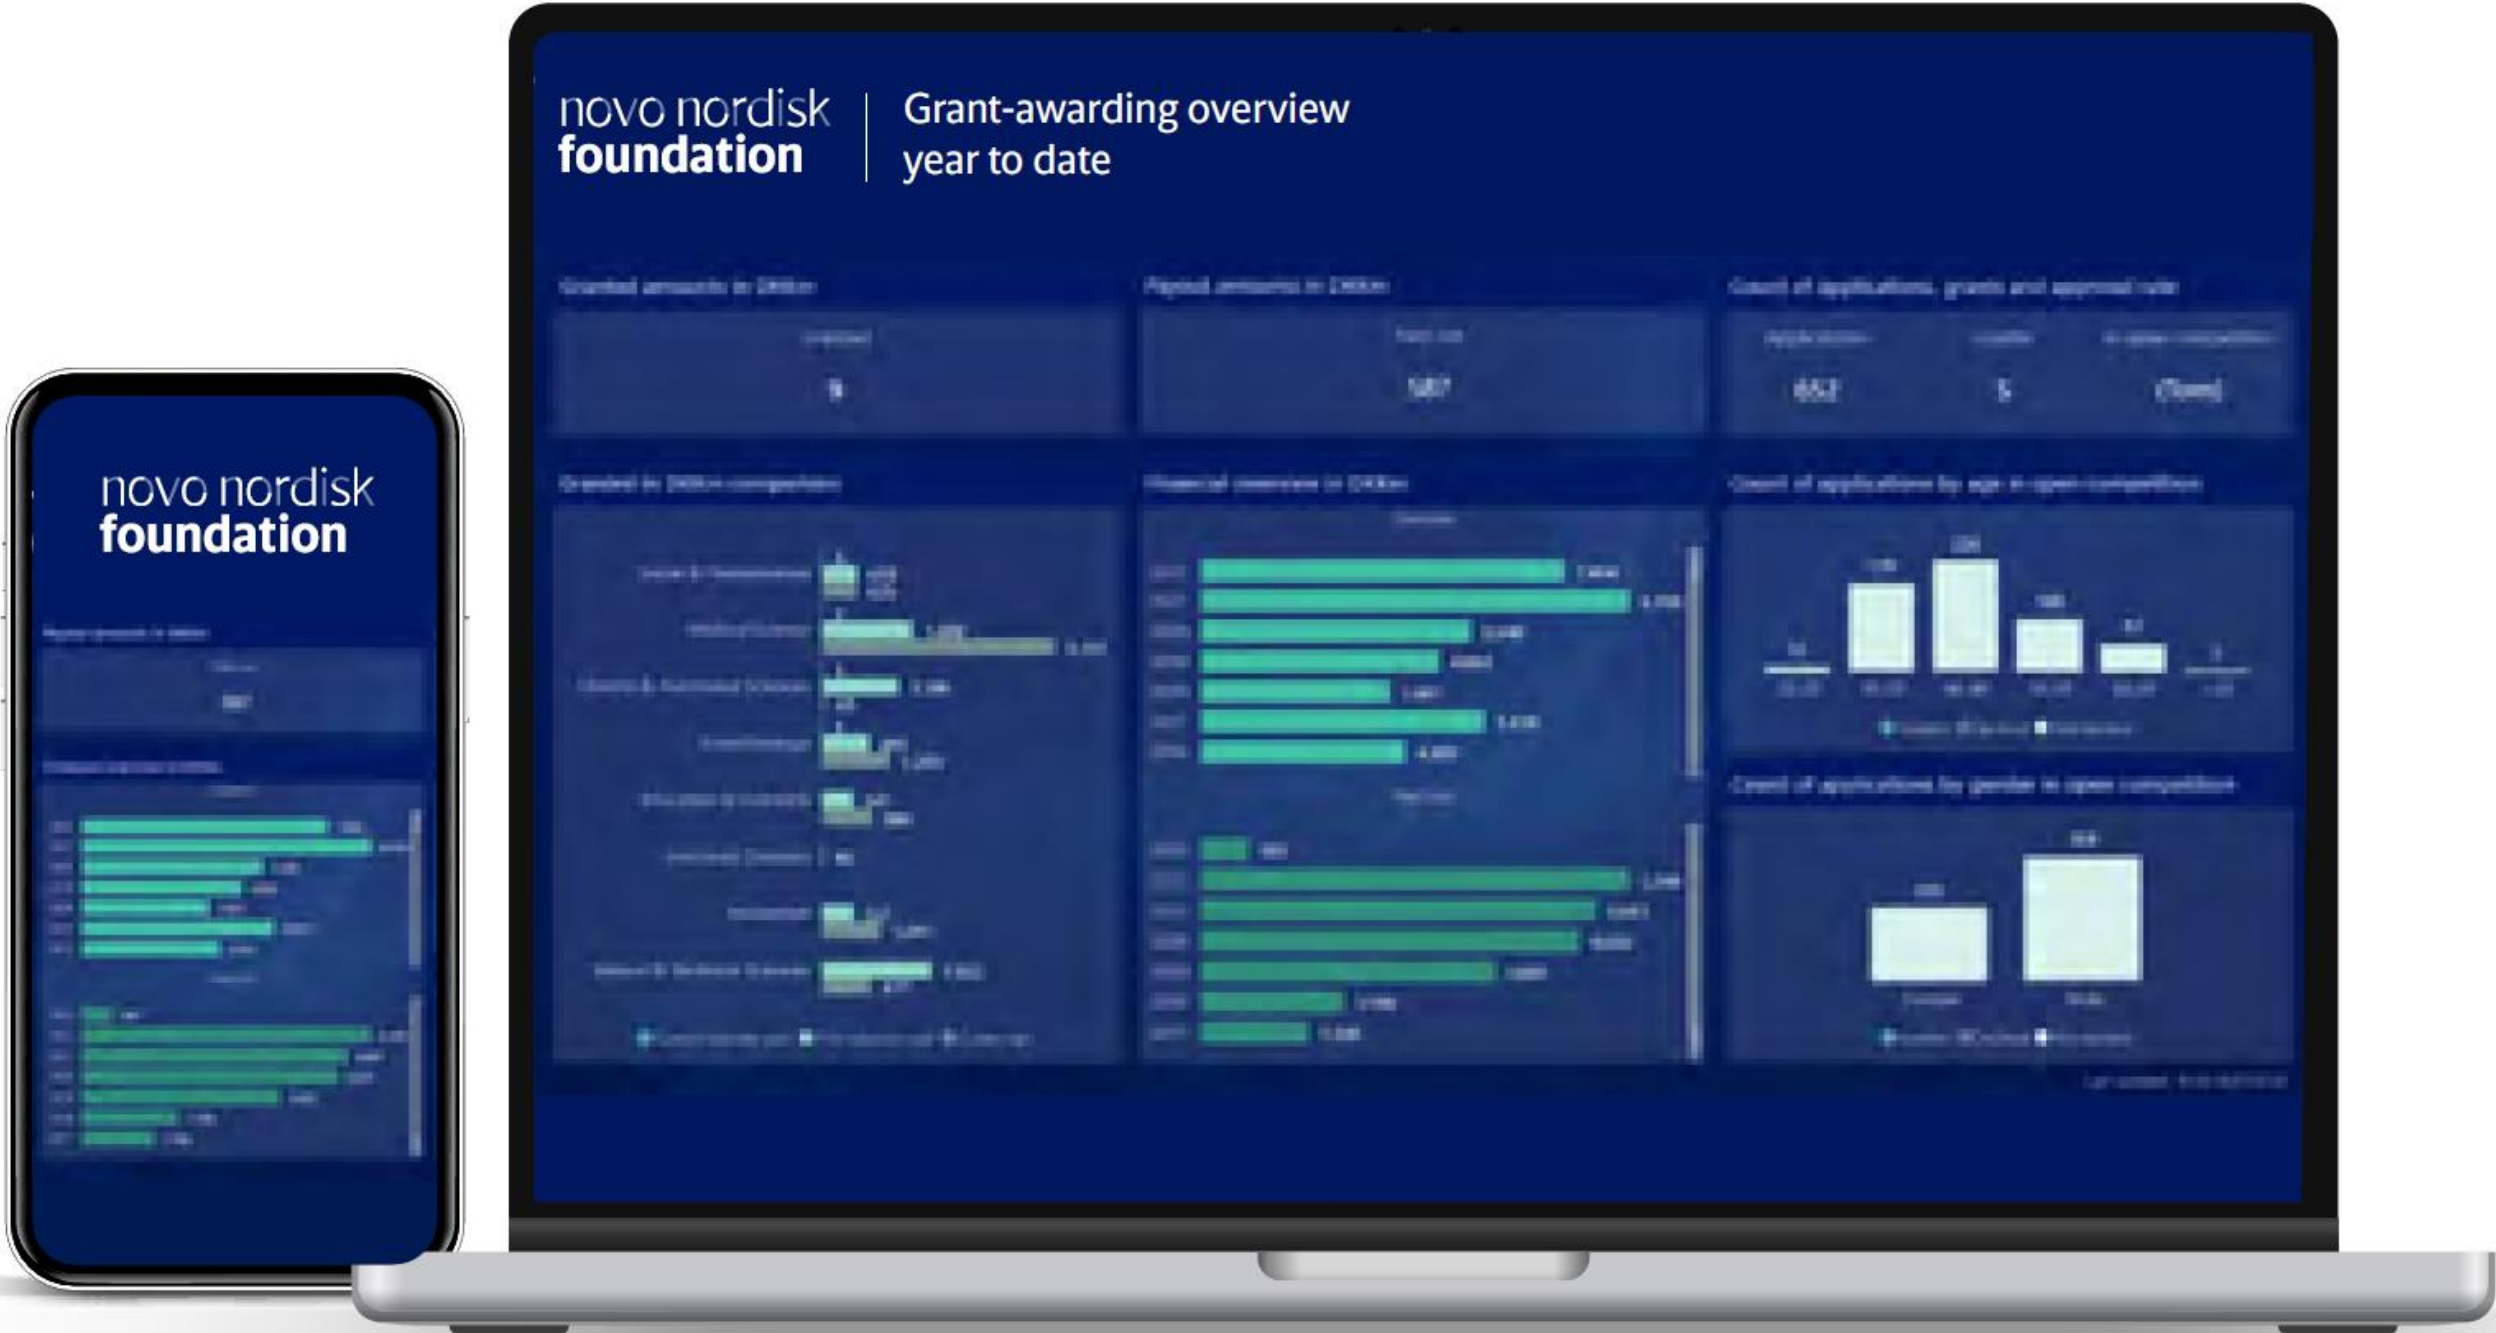

We actively use the reported results and outcomes

Impact Assessment Framework: Based on the Logical Impact Model, we conduct three types of analyses

Annual Report 2024

Report contents

The wizard will guide you through the following sections:

- Overview** (1 question(s))
All the basic administrative information about the initiative
- Inputs** (3 question(s))
Inputs are what the initiative needs for the activities to take place, such as finances, people and collaborators.
- Activities** (1 question(s))
Everything that is being done as part of the initiative whether it's things being built, taught, researched, or shared.
- Results** (1 question(s))
Everything that the initiative activities have lead to, including recognition, knowledge, further research, influence on policy and any other outputs or outcomes.
- Learnings** (1 question(s))
An opportunity to summarise and reflect on everything that you have collected in your report
